After the War he set forth a scientific military line most suitable to the future development and demand our revolution and the situation of our country and personally cared for all the problems, big and small, while personally guiding the struggle for carrying through the military line.

The growth of our People's Army into a-match-for-a-hundred revolutionary armed forces as we see today is a fruition of the wise leadership and paternal solicitude of Marshal Kim Il Sung and it is associated with his warm fatherly love.

According to the report and speeches, through the struggle for carrying through the programmatic teachings of Marshal Kim Il Sung on strengthening the People's Army into invincible revolutionary armed forces, the entire officers and men of the People's Army have been firmly armed with the great revolutionary ideas of the Leader and the unitary ideological system of the Party has been thoroughly established in the People's Army and they have been firmly prepared to protect and defend the Leader politically and ideologically in any storm and stress.

And the guiding function of the Party Committees and the role of the political organs have been further enhanced, the Party life of the commanding officers and political workers of the units strengthened, the revolutionary work method and work style have been further established and the traditional traits of the unity between the superior and the inferior and between the army and the people have been given fuller play.

Great successes have also been made in the work of the organizations of the League of Socialist Working Youth in the units. As the result of the improvement of the supply work, the deep solicitude shown by the Leader for the life of the armymen reaches them in time and correctly and their material and cultural life has been further improved.

Emphasizing in unison that all these successes have been possible entirely thanks to the wise leadership and fatherly love of Marshal Kim Il Sung, the respected and beloved Leader, the speakers extended him boundless thanks and the greatest honour.

It was also emphasized in the speeches to strengthen the combat preparedness and increase combat capacity of the units by energetically implementing the military line of the Party and firmly establish the military discipline and further improve the supply work.

Stressing that the success in all the work depends on the political work, the meeting paid profound attention to the question of all workers conducting the political work and of pushing the political work ahead of all other work.

The meeting laid stress, as an important question, on further heightening the militant strain and revolutionary vigilance and energetically carrying on the combat preparedness and combat training in a mobilized posture in face of the ever undisguised manoeuvres of the U.S. imperialists for the provocation of a war.

Marshal Kim Il Sung gave programmatic teachings on further strengthening and developing the People's Army into a-match-for-a-hundred revolutionary armed forces and modern cadre army.

The attendants of the meeting pledged themselves to arm themselves more firmly with the great revolutionary ideas of Marshal Kim Il Sung, the unitary ideology of the Party, tirelessly carry on their revolutionary cultivation and further strengthen the units into a-match-for-a-hundred revolutionary armed forces by thoroughly carrying through the teachings of the Leader and the Party policies, particularly his teachings given at the meeting.

Marshal KIM IL SUNG Receives Messages

From Representatives of Latin American Revolutionary Organizations and Permanent Residents in Cuba and Students of Three Continents Studying in Soviet Union

PYONGYANG, Oct. 27 (KCNA) — Comrade Kim Il Sung, the great Leader of the 40 million Korean people, received the messages from the attendants of a forum of representatives of the Latin American revolutionary organizations and permanent residents in Cuba held in Havana, and the attendants of a meeting of Asian, African and Latin American students studying in the Soviet Union held in Moscow some time ago in connection with the first anniversary of the publication of "Great Anti-Imperialist Revolutionary Cause of Asian, African and Latin American Peoples Is Invincible," an immortal work of genius authored by him.

Message to Marshal KIM IL SUNG from Representatives of Latin American Revolutionary Organizations and Permanent Residents in Cuba

The message adopted at the forum said:

On the occasion of the first anniversary of the publication of the treatise **"Great Anti-Imperialist Revolutionary Cause of Asian, African and Latin American Peoples Is Invincible"** authored by Comrade Kim Il Sung, the great Leader of revolution and one of the outstanding leaders of the international communist movement and working-class movement, the representatives of Latin American revolutionary organizations and permanent residents in Cuba held a forum and reverentially address this message to you who is lighting the path ahead of our revolution.

The treatise authored by you is a document which is of tremendous theoretical and practical significance which made a most correct analysis of the strategy and tactics of the anti-imperialist, anti-U.S. struggle in conformity with the demands of the present times and gave a precious treasure serving as pabulum to the peoples making revolution.

Indeed, your treatise is a powerful weapon of struggle and a reliable guarantee of victory for the peoples of the three continents waging a staunch struggle against the imperialists headed by U.S. imperialism and reactionaries at home.

Particularly in the treatise you made a scientific, Marxist-Leninist analysis of the anti-U.S. struggle of the Latin American peoples at the present times.

You pointed out with lucidity: **"If the fierce flames of revolution flare up in many countries of Latin America where U.S. imperialism sets foot, the force of U.S. imperialism will be dispersed and sapped as much and the attempts of the U.S. imperialists and their lackeys to strangle Cuba by concentrated force will inevitably fall through. Further, if the revolution emerges victorious in some other Latin American countries, Cuba will get out of the encircling ring of imperialism with which she is confronted on all sides, there will be opened up a favourable phase in the revolutions of Cuba and Latin America, and the world revolution will be stepped up still more."**

This proposition is a precious experience which you gained in the course of the over 40-year-long anti-imperialist revolutionary struggle against the Japanese imperialists and the U.S. imperialists and a line which should be followed by the peoples in colonial dependent countries.

In advancing in the treatise the strategy of the world revolution that **"The peoples of the countries making revolution should join efforts to tear left and right arms from U.S. imperialism, tear off its left and right legs and behead it eventually everywhere it stretches out its crooked hands of aggression,"** you taught us that the peoples of small countries of the world making revolution join efforts to deal collective blows at the U.S. imperialists, they can fight them down and thus correctly clarified the tasks facing the peoples of the three continents in their anti-imperialist struggle.

Whenever we come across with any unsolved question of the anti-imperialist, anti-U.S. struggle of the present times, we always find a solution in your propositions.

That is why we call your treatise in other words "textbook of the anti-imperialist, anti-U.S. struggle."

The message said in conclusion:

We will continue to make tireless efforts as ever to study your revolutionary ideas.

We reverentially wish good health and a long life to Comrade Premier for the ultimate victory of the Korean revolution and world revolution.

Message to Marshal KIM IL SUNG from Students of Three Continents in Soviet Union

A message addressed by the attendants of a meeting of Asian, African and Latin American students studying in the Soviet Union, which was held in Moscow said:

Today the great revolutionary ideas and the strategy of struggle you expounded in your treatise constitute a programme of struggle for the revolutionaries and peoples of all countries of the world who have risen up in the revolutionary struggle and a lighthouse brightly illumining the path ahead of them, source of their strength and textbook and weapon

FROM MARSHAL KIM IL SUNG'S REVOLUTIONARY ACTIVITIES DURING ANTI-JAPANESE ARMED STRUGGLE

Winter Military and Political Studies At Matankou

Marshal Kim Il Sung giving a lecture on the "Duties of the Korean Communists"

In the arduous days of the anti-Japanese armed struggle Comrade Kim Il Sung who regarded studies as the first and foremost task for the revolutionaries always directed deep attention to his men's studies and put his soul and heart in the educational work for rearing them into fine Communists.

He would say to his men to the following effect:

"...Those who make revolution must, without exception, regard studies as their first and foremost revolutionary task and make a persevering effort to acquire the Marxist-Leninist revolutionary world-outlook and have a deep grasp of the lines and policies of the Korean revolution. Only by so doing, can they keep a firm faith in the victory of revolution without wavering in any difficult, complex period of trials and become true Communists faithful to the revolution...."

Comrade Kim Il Sung not only taught them about the importance of studies in this way, but also pushed ahead energetically with their studies under any complex, difficult conditions during the whole period of the anti-Japanese armed struggle.

As for the military and political studies of the guerillas in the days of the anti-Japanese armed struggle, there were such forms as the day-to-day studies that were conducted between intervals of successive battles and march, the short course and the concentric military and political studies in the winter time.

The main textbooks and subjects of study were the works written by Comrade Kim Il Sung and his outstanding strategic and tactical lines.

And the short course was frequently organized not only in guerilla base areas but in secret camps in Heishiatzukou, Tafangtzu, by the Olgi rivulet, in the forest of Hwalatzu—everywhere the Korean People's Revolutionary Army was active.

The intensified winter military and political studies were conducted regularly almost in every winter under the personal guidance of Comrade Kim Il Sung.

The studies at Matankou (from the end of 1937 to the beginning of 1938) were also organized under the far-sighted plan of Comrade Kim Il Sung, as a strategic preparation for bringing about a fresh upsurge in the Korean revolution by surmounting the crisis of the Korean revolution created due to the manoeuvrings of "Left" adventuristsflunkeyists and to the fascist suppression by Japanese imperialism.

For the studies in the secret camps at Matankou Comrade Kim Il Sung made preparations from the summer of the year. He made a regiment-strong unit and members of the secretariat secure provisions needed in the period of studying and publish various documents and materials necessary for lessons.

Thanks to the profound solicitude and energetic efforts of Comrade Kim Il Sung, quite many materials for studies were prepared. Among them were the works of Comrade Kim Il Sung—the "Ten-Point Programme of the Association for the Restoration of the Fatherland," the "Duties of the Korean Communists,"—reference books, papers **Sogwang** and **Samil-Wolgan** published by the secretariat and paper **Jongsori** printed in the army and other various publications.

Once the preparations for studies were made Comrade Kim Il Sung conducted military operations against the enemy to deal blows to him and throw him into confusion and taking advantage of the enemy's disturbance, moved the units to the secret places designated in advance.

Comrade Kim Il Sung lured through such operations the enemy's "punitive forces" in the snow-bound area of Changpai and Linchiang where they were left to grope about blindly, and then quietly led the units to Matankou. There he ordered the guerillas to build secret camps to provide good condition for studies. He personally took part in the building of the secret camps and worked out an overall programme of the military and political studies for the winter.

The contents of studies given at the time covered a wide range of fields. The fighters were given not only political and military education but the education of general knowledge in a comprehensive and systematic way.

The anti-Japanese guerillas, first of all, strove to arm themselves with the great revolutionary ideas of Comrade Kim Il Sung and make them their flesh and blood during the winter military and political studies.

The anti-Japanese guerillas made a deep study of his works. In the course of discussions they thoroughly grasped the profound thoughts contained in these works, and their essence.

In political studies the main stress was put on the study of Comrade Kim Il Sung's works. The foundamentals of Marxism-Leninism were also a basic subject of their study.

In the military and political studies Comrade Kim Il Sung helped the guerillas be accustomed to combining theory with practice.

The practical problems of the revolution always formed the liveliest topic of discussion at the studies conducted under his direct guidance.

Every day Comrade Kim Il Sung gave lectures on such subjects as the "Ten-Point Programme of the Association for the Restbration of the Fatherland" and "Duties of Korean Communists." After finishing lectures, he used to set such subjects as "On the character of the people's revolutionary government to be established in the future," "On corelations between the Party and the government" and "On the motive force of revolution" and saw to it that everyone studied them by himself before taking part in discussions a few days later.

In the discussions it was particularly required of everyone to combine such problems as the positions of various classes and sections of the population of our country, the living conditions of workers and peasants, their strike struggles and tenancy disputes, with the tasks confronting the Anti-Japanese Guerilla Army.

Comrade Kim Il Sung always attentively listened to each discussion of guerillas, assessed the observations of each comrade and straightened out what was wrong, giving correct explanations to this.

During the winter short course, political study went hand in hand with the systematic military training to prepare the units militarily and technically in accordance with the education programme drawn up by Comrade Kim Il Sung.

As was the case with the political lessons, Comrade Kim Il Sung also paid special attention to military study. He personally allocated lectures on military theory and tactics and led the drill. He directly guided the military study of cadres.

The parental guidance of Comrade Kim Il Sung and example set by him to others were, indeed, of great significance in promoting the desire of guerillas for learning and establishing a thoroughgoing and revolutionary habit of study in the Anti-Japanese Guerilla Army.

Even in the days of arduous march and battles Comrade Kim Il Sung made it a rule to keep his diary by the campfire and read books, and, disregarding fatigue, wrote many works for the development of the Korean revolution and for his men's study.

Though he was busy giving lectures and guiding the debates during the military and political studies he wrote textbook in person for his men. He personally made notebooks for the guerillas and wrote down even their names on them.

His parental guidance and care for his men's study and his practical example greatly tended to promote the desire of the anti-Japanese guerillas for learning. Thus a revolutionary trait was thoroughly formed within the guerilla army —a trait that commanding personnel gave aid to the men and that the well-informed taught the less-informed.

Indeed, Comrade Kim Il Sung was the great Leader who led the anti-Japanese armed struggle and the Korean revolution to victory, and the great teacher who guided the anti-Japanese guerillas to the road of revolution and implanted the invincible revolutionary ideas in their minds and imparted the revolutionary knowledge to them.

Though scores of years have passed since then, the former anti-Japanese guerillas still now recall to their mind how they studied at Matankou under the direct guidance of Comrade Kim Il Sung. This bespeaks that the military and political studies for the winter were of great importance in their life and their growth as revolutionaries.

Indeed, the studies at Matankou, along with those conducted in other secret camps, were for the anti-Japanese guerillas a college of revolution, as it were, which fully armed them politically and ideologically.

It was through this very college that the anti-Japanese guerillas further firmly armed themselves with the great revolutionary ideas of Comrade Kim Il Sung and made them their bones and flesh and thus fought valiantly on as "a-match-for-a-hundred" heroes in fierce battles against the enemies and grew up into revolutionary fighters who were boundlessly faithful to the Leader without vacillation in any adversity, and into fine Communists who were prepared politically and militarily.

Korean People Won Victory in Socialist Construction under Correct Leadership of Premier KIM IL SUNG, Stresses Foreign Press

Foreign publications carried articles praising the sagacity of the leadership of Marshal Kim Il Sung, the founder of the WPK and the respected and beloved Leader of the 40 million Korean people, and the proud successes the Korean people have made in the socialist revolution and socialist construction under his outstanding leadership.

The October 10th issue of "Granma," organ of the Central Committee of the Cuban Communist Party, carried an editorial article headlined "24th Anniversary of the Founding of the Workers' Party of Korea," according to a report from Havana.

Stressing that the Workers' Party of Korea has registered tremendous successes in the past 24 years in the struggle against U.S. imperialism and for the development of the socialist economy, the article declared that the Cuban people demand the immediate withdrawal of the U.S. imperialist aggressor army from South Korea and sharply denounce the aggressive provocations of U.S. imperialism against the fraternal Korean people.

In conclusion the article stated that Cuba would always remain on the side of the Korean people fighting against the provocative and aggressive manoeuvres of U.S. imperialism and for defence of the freedom and sovereignty, liberation of South Korea and unification of the fatherland, and on the side of the Workers' Party of Korea, the seasoned vanguard led by Marshal Kim Il Sung, the great Leader.

It was reported from Katmandu that the October 10th issue of the Nepalese paper "Motherland" ran an article entitled "The Struggle of the Korean People Waged under the Direct Leadership of Premier Kim Il Sung."

Writing that Premier Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, founded the Workers' Party of Korea 24 years ago, the paper pointed out:

Premier Kim Il Sung founded the Anti-Japanese Guerrilla Units, the first genuine revolutionary armed forces of the Korean people, in 1932 and has led the Korean revolution to a great victory.

Premier Kim Il Sung put his heart and soul into the organizational and ideological preparations for founding a party, while leading the anti-Japanese armed struggle, breaking through all difficulties.

Premier Kim Il Sung, has devoted his all to the struggle for over 40 years since he took the road of revolution, taking upon himself the destiny of the country and the nation.

History does not know a man who has struggled for such a long period. Only Premier Kim Il Sung, the respected and beloved Leader and ever-victorious, iron-willed brilliant commander, has triumphantly fought for so long period.

In conclusion the paper wrote:

The ideas of *Juche* of Premier Kim Il Sung that the revolutionary line of each country should be worked out in conformity with the specific conditions of the country and the revolution be carried out on its own efforts, are really great revolutionary ideas. It is thanks to such great ideas of *Juche* that the Korean people could win great victories in the struggle for the liberation and independence of the country against the enemy and in the struggle for socialist construction. Therefore, it is only too natural that the world people look up to Premier Kim Il Sung with such adoration.

With this article, the paper carried the full text of "The Anti-Japanese Armed Struggle of the Korean People Organized and Waged under the Personal Leadership of Comrade Kim Il Sung," the document on the strategy and tactics in the period of the glorious anti-Japanese armed struggle which was adopted at the Havana Cultural Congress.

According to a report from Bamako, the Malian News Agency aired on the 10th an article headlined "Founding of the Workers' Party of Korea."

The October 11th issue of the Malian paper "Lessor" carried an article under the title "The 24th Birthday of the Workers' Party of Korea."

Respected and beloved Premier Kim Il Sung, the Leader of the Workers' Party of Korea, put forward the well-known ideas of *Juche* run through with the ideas of independence in politics, self-sustenance in economy and self-defence in national defence, the ideological fighting programme of the Workers' Party of Korea.

These correct ideas enabled the Korean people to repulse all the aggressors and win victory and bring about a great advance in the building of economy, culture and society in the northern half of the Republic.

New Ironware Factories Set Up in DPRK

Several new ironware factories have made their appearance of late in Kim Chaek city, an industrial city of the DPRK.

This time they have built again new factories to thoroughly implement the instructions of Comrade Kim Il Sung, the respected and beloved Leader, for producing more and better ironware.

The big factories and enterprises in the city are rendering active help in the construction of new factories, supplying them with installations and giving technical assistance.

The newly built ironware factories sent to stores a wide variety of new iron-made daily necessaries of good quality suitable to the daily enhancing people's livelihood.

Orchards Reap Bountiful Fruits

A year of abundance in fruits previously unknown, has visited the DPRK this year. A large number of working people have been mobilized in picking plentiful fruits at the orchards provided by Marshal Kim Il Sung, the respected and beloved Leader, everywhere in the country—in the Bukchong area noted for its apples and other parts of the eastern coast of scenic beauty in South Hamgyong Province, Hwangju and Songhwa counties and other parts of North and South Hwanghai Provinces and the mountain areas and northern plateau areas

In Bukchong county, an average of 21.5 tons of apples are expected per *chongbo* (approximately one hectre) this year, taking the country as a whole.

The Chullima Munhwa Co-operative Farm and many other co-operative farms in the country look ahead to an average of over 30 tons per *chongbo* and no small number of them expect 60 to 70 tons at maximum.

An average of four to five tons per *chongbo* are reported even from the newly built orchards of young trees.

The Rahung Co-operative Farm, where not a fruit tree could be seen in the past, is gathering in hundreds of tons of fruits from new orchards extending more than 100 *chongbo*.

The abundant yield of fruits in the Bukchong area has been brought about by the wise leadership of Marshal Kim Il Sung, the respected and beloved Leader, and the profound care shown by him.

Each time he visited the Bukchong area, the Leader indicated a concrete direction and ways for bringing into shape more fruit farms and better managing them, while guiding the general work of Bukchong county.

The Leader saw to it that the Chullima Munhwa Co-operative Farm built good fruit farms on hillsides and then called there a historical Enlarged Meeting of the Presidium of the Central Committee of the Party on April 7, 1961, thus opening the way for a great turn in converting all the hills of the country into golden hills and silk hills.

Holding aloft the decision of the Bukchong Enlarged Meeting of the Presidium of the Central Committee of the Party in April 1961 and the on-the-spot instructions of the Leader, the fruit farm where Kim Jae Jun works has created new orchards of 135 *chongbo* and reared over 150 pomiculturists in the recent four years and markedly enhanced the mechanization standard of fruit farming. Broad roads winding round hillsides have been built, so that tractors and lorries can reach the orchards, and water-pumping stations have been installed on hilltops to water the orchards without interruption.

In the recent years, over 1,000 tons of fruits were picked outside the plan every year on the farm, and a bigger success has been made this year.

It plans to bring into being 210 *chongbo* of new orchards in a few years.

The fruit output has shown this year a 20-per cent rise above last year on the fruit farm where Sim Sung Sop works.

During the past period, the agricultural working people of the farm have newly created over 500 *chongbo* of orchards, where the harvest of this year is the highest ever recorded. The picking at each work team is an average of more than 140 tons above the plan.

In 1967 the acreage under fruits stood at 133,000 *chongbo* or more and that under chestnut at 100,000 *chongbo* in the DPRK. And in the recent two years the area under fruits has been extended by 10,000 *chongbo*.

In the near future Korea will have 200,000 *chongbo* of orchards, all told.

of struggle.

You have made a truly great contribution to the anti-imperialist, anti-U.S. struggle and the development of the world revolutionary movement by giving an overall answer in the treatise to the theoretical and practical questions whose solution was urgently required by the present times, such as the question of the ultimate victory of socialism, the question of winning power by crushing counter-revolutionary armed forces with revolutionary armed forces, the question of the nature of imperialism and the strategy of U.S. imperialism, the line of the anti-imperialist, anti-U.S. struggle and the strategy of struggle of all countries for defeating U.S. imperialism.

Defining with your genius the strategy and tactics for bringing about the ultimate victory of revolution in the countries which have gained power in the capitalist encirclement, you taught us **"For the attainment of the ultimate victory of the revolution, the peoples who have gained power in the encirclement of international capital, while reinforcing their own internal force in every way, should receive solid support from other detachments of the world socialist revolution and should receive broad international assistance from the working classes of all nations and the oppressed peoples of the whole world"** and to promote the development of the world revolutionary movement **"The revolution which has emerged victorious should assist the revolutions of those countries which are not yet triumphant with its experiences and examples and render active support to the liberation struggle of the world's peoples with its political, economic and military power, while the peoples in the countries which have not yet won the revolutions should struggle more actively to defend the victorious revolutions of other countries against imperialist policy of strangulation and hasten victory for their own revolutions."**

The discovery of this law and its classic definition deepened and developed in an original way the Marxist-Leninist theory to meet the demands of the present times and thereby made a great contribution to enriching its treasure-house and developing the world revolutionary movement.

The forms and methods of the revolutionary struggle you taught us are the formulation based on the summing up of the over 40-year-long and great revolutionary history and experience of you and as such are boundlessly valuable for us.

We think that the treatise analyzed all the conditions under which the revolutionary peoples are struggling against imperialism on all fronts of Asia, Africa and Latin America and elucidated the method and form of the struggle of the peoples of the three continents in face of the aggression of imperialism and the strategy of struggle which they should hold.

Esteemed Comrade Kim Il Sung!

Though only one year passed since the publication of your treatise, today all the revolutionaries and peoples of Asia, Africa and Latin America are raising high the flames of the anti-imperialist, anti-U.S. struggle along the road indicated by you and are making big successes.

We firmly believe that the great ideas and the strategy of struggle elucidated by you will kindle a flame of struggle, spreading from heart to heart among the peoples of all continents as the days and years go by and eventually lead the peoples of the three continents to accomplish the great anti-imperialist revolutionary cause.

We will make all our efforts to more deeply grasp the great revolutionary ideas and the strategy of struggle put forth by you for the victory of the revolution in our countries.

In conclusion we wholeheartedly wish a long life to you, the respected and beloved Leader of the 40 million Korean people, great Leader of the revolution of the present times and outstanding guide, for the completion of the Korean revolution and victory of the great anti-imperialist revolutionary cause of the peoples of the three continents and victory of the world revolution.

"We Sternly Denounce Fascist Repression of S. Korean Patriots by U.S. Imperialists and Pak Clique"

Unjust Death Penalties For S. Korean Patriots

The U.S. imperialists and the Pak Jung Hi fascist gang, their dog, again staged a murderous trial in Seoul on Oct. 27 and perpetrated unpardonable fascist barbarity, "demanding" ruthless penalties for 18 South Korean patriots including Messrs. Kim Gyu Nam and Pak Dae In (Pak Ro Su), under the notorious "National Security Law" and "Anti-Communist Law," according to reports from Seoul The rascals "demanded" death sentences for Messrs. Kim Gyu Nam and Pak Dae In and two other patriots and penal servitude up to 15 years for 14 patriots including the wife of Mr. Pak Dae In.

At the murderous trial, the enemy as usual foolishly tried to make it appear that the above patriots had been instructed by someone else in their righteous activities of anti-U.S. imperialism and for national salvation. But such vicious attempt of the rascals was brought to daylight by the resolute struggle of the patriots.

In the "court," Mr. Pak Dae In insisted on the justness of the activities the patriots had conducted as their national conscience dictated them and drove the rascals into a corner by waging a "court" struggle scathingly exposing and denouncing the despicable attempt of the enemy to impose upon them illegal penalties through the fabrication of false facts.

As already reported, these patriots who are subjected to endurable persecution by the U.S. imperialists and the Pak Jung Hi butchers are those of the working class origin of South Korea, personages who fought against the U.S. imperialists and their stooges at the time of the Ryosu and Sunchon army revolts in the past, intellectuals who studied in foreign countries such as Japan and Britain, those engaged in photographic and hotel business. Also among them are former puppet national assemblymen, professors, men of the press and high-ranking officials of puppet organs. They formed revolutionary organizations in broad areas of South Korea including Seoul, Pusan and Posong and devoted all their efforts to the struggle for putting an end to the colonial rule of U.S. imperialism in South Korea, bringing earlier the advent of the decisive moment of the unification of the country and accumulating and inceasing the revolutionary forces to meet it with full preparations.

Particularly, they strove to grasp the strategic and tactical lines of the South Korean revolution indicated by Marshal Kim Il Sung, the great Leader of the 40 million Korean people, and learn and follow the examples of the anti-Japanese guerrillas who remained infinitely loyal to the Leader and their undaunted revolutionary spirit by making a deep-going study of "Selected Works of KIM IL SUNG" and other immortal works of the Leader and "Reminiscences of the Anti-Japanese Guerrillas" to carry out the sacred revolutionary duty.

They also formed such mass organizations as "Ilsinge" and "Jongpunghoi" endeavouring to draw the workers, peasants and other people of all strata into these organizations while tirelessly explaining and propagating among the people the superiority of the socialist system established in the northern half of the DPRK to awaken them to national and class consciousness.

Pyongyang City Rally Blasts Fascist Acts of U.S. Imperialists and Pak Clique

PYONGYANG, Nov. 1 (KCNA) —A Pyongyang City mass rally denouncing the fascist barbarities of the U.S. imperialists and the Pak Jung Hi clique against Messrs. Kim Gyu Nam and Pak Dae In and other South Korean patriots was held at the Moranbong Theatre in Pyongyang, the capital of the revolution, on the evening of Oct. 31.

Attending the rally together with working people, youths and students in the city were Kang Ryang Uk, vice-Chairman of the Committee for the Peaceful Unification of the Fatherland and vice-President of the Presidium of the Supreme People's Assembly; Pak Sin Dok, Chairman of the Central Committee of the Religious Chongu Party, and presidium members of the Central Committee of the Democratic Front for the Unification of the Fatherland, and responsible personages of government organs and public organizations.

Representatives of the United Revolutionary Party were also present at the rally.

When the rally was not yet open, the theatre shook with the shouts of the attendants bitterly denouncing the rascals: "We Sternly Denounce the Fascist Repression of South Korean Patriots by the U.S. Imperialists and the Pak Jung Hi Clique!" "Expel the U.S. Imperialist Aggressors from South Korea and Unify the Fatherland!" "Down With the Pak Jung Hi Clique, the Running Dogs of the U.S. Imperialists!" "Smash the Long-Term Office Scheme of the Pak Jung Hi Clique, the Traitors to the Nation!"

Kang Ryang Uk, vice-Chairman of the Committee for the Peaceful Unification of the Fatherland and vice-President of the Presidium of the Supreme People's Assembly, was the first to take the floor.

He recalled that the U.S. imperialists and the Pak Jung Hi gang of murderers, at a murderous trial they again staged in Seoul on Oct. 27, committed the murderous outrage of "demanding" death sentences for Messrs. Kim Gyu Nam and Pak Dae In and two other patriots and prison terms up to 15 years for 14 patriots including the wife of Mr. Pak Dae In. This is one more challenge and intolerable insult to the entire Korean people and the honest-minded people the world over who are sternly denouncing the fascist repressive barbarities of the U.S. imperialists and the Pak Jung Hi puppet clique against the South Korean revolutionaries and patriots, the speaker said. He sharply denounced this in the name of the entire people of North and South Korea.

These heinous criminal atrocities of the rascals proceed from the heinous design to put down the anti-U.S., national salvation struggle raging furiously like a prairie fire in South Korea, bridge over the serious crisis of the colonial, military fascist rule on the verge of collapse and further step up their policies of aggression and war in Korea. But, it is nothing but a death-bed desperation.

The speaker scathingly denounced the U.S. imperialist aggressors who are now perpetrating all sorts of criminal manoeuvres, while introducing even the Japanese militarists into South Korea.

Referring in detail to the tasks confronting the South Korean people, and the South Korean revolutionaries and patriots arrested and detained by the enemy, he stressed: In order to win victory in the struggle they must firmly arm themselves with the great revolutionary ideas of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

For the South Korean people there are the wise leadership of Comrade Kim Il Sung, the iron-wall revolutionary base in the northern half of the Republic and the militant support and encouragement of the people of the northern half of the Republic, the speaker said, and went on:

The South Korean people will certainly win final victory when they fight more staunchly along the road of revolution indicated by the Leader, with deeper conviction of victory.

Then the floor was taken by representatives of workers, agricultural working people and women.

The attendants of the mass rally firmly resolved to advance, advance, struggle and advance for the complete victory of socialism and the accomplishment of the historic cause of national unification, rallied ever closer around Comrade Kim Il Sung, the great Leader of the 40 million Korean people.

South Korean patriots and people are waging struggles against U.S. imperialists and their lackeys.

Fascist Repression by U.S. Imperialists, Pak Ruffians

On Oct. 27, the U.S. imperialists and the Pak Jung Hi clique in their murderous Seoul trial demanded death and other heavy penalties for 18 South Korean patriots including Kim Gyu Nam and Pak Dae In. This is another intolerable challenge to the South Korean people and human consciousness.

The above patriots formed revolutionary organizations in vast areas of South Korea including Seoul and devoted their all to accumulating and strengthening revolutionary forces for the liberation of South Korea and the country's unification.

They are said to have striven to grasp the strategic and tactical lines of the South Korean revolution indicated by Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and learn from and follow the lofty revolutionary spirit of the anti-Japanese guerrillas who were infinitely loyal to the Leader, by making a deep-going study of "Selected Works of KIM IL SUNG" and other immortal works of the Leader and "Reminiscences of the Anti-Japanese Guerrillas" to carry out their sacred duty.

It is clear to everyone that the activities of the South Korean patriots, who, concerned for the destiny of the fatherland and nation, waged a sacred anti-imperialist, anti-U.S. struggle for the freedom and liberation and the unification of the country along the road of revolution indicated by the Leader, can never be a "crime."

Those who deserve a stern judgement and punishment by the people in South Korea are none other than the U.S. imperialist aggressors who, have been obstructing the unification of the country and imposing indescribable misfortunes and disasters upon the South Korean people, while enforcing a brutal colonial rule without precedent since their occupation of South Korea by force of arms and the Pak Jung Hi puppet clique, the running dogs of U.S. imperialism, who have been perpetrating all sorts of country-selling, treacherous acts, bartering away the destiny of the country and the nation to foreign aggressors.

Korean people will never tolerate or overlook the criminal plots of murder hatched against the South Korean patriots again by the enemy who must be tried and punished by the people.

If the root cause of all the misfortunes and sufferings of the people are to be eradicated in South Korea and their freedom and liberation be won, the U.S. imperialists, the sworn enemy of Korean people, must be chased out of South Korea and the Pak Jung Hi puppet clique, their stooges, be overthrown and the people should seize power in their hands. The South Korean people should closely combine the struggle against U.S. imperialism and its stooges with the struggle for seizing power and subordinate all forms of struggle to it.

S. Korean Radio Yearns for Advanced Educational System of North

Deploring the misery of the South Korean children who are languishing left out of school owing to the U.S. imperialists' policy of colonial slave education, a South Korean radio expressed longing for the advanced educational system of the northern half of the DPRK under which everyone studies to his heart's content, free of charge.

Saying that a large number of children of South Korea are wondering about on the streets with empty cans or shoeshine boxes, left out of school, the radio pointed out that the children attending school are pestered with over 60 kinds of "miscellaneous impositions" levied by the puppet clique and many of them have nothing to do during the classes but to watch the mouths of the teachers, with no money to buy textbooks and notebooks and even pencils.

The radio recalled that over 1,000 "primary school" children in Milyang county, South Kyongsang Province, addressed a pathetic appeal to the public, saying "please send us second-hand books so we may study, because our families are so poor that we cannot have even regular meals, far from buying books." "Such case can be seen everywhere in South Korea," the radio added.

Envying the younger generation of the northern half of the Republic who study, not paying a single penny, and to whom the "tuition fee" and "school imposition" are totally unknown, and who have nothing to worry about in their study, receiving even new uniforms from the State for every season, the radio said: "As far as we know, the books are supplied free and no burden of expenses is imposed there."

S. Korean Army Soldier Comes Over to DPRK

I could no longer endure the puppet army life in which I was forced to treachery and shame, he said.

Li Song Nam, 27, corporal of fire arms platoon, 10th company, third battalion, 63rd regiment, 21st division of the South Korean puppet army, came over some time ago to the prospering northern half of the DPRK, crossing the death-line, after breaking out of the disgraceful service in the puppet army.
